What regulatory challenge does your Promising Practice hope to solve?

Who does this problem impact?

How did you identify the problem?

Provide a detailed description of your Promising Practice (**Limit to 500 words**)  
*Please include details on who is intended audience, how this innovation will change the practice of regulatory administration and steps towards implementation.*

What impact is the practice having? How does the Promising Practice meet the organization's goal?

What performance metrics did your organization use to measure effectiveness of the Promising Practice?

What future enhancements would your organization make to the Promising Practice?

What are some major lessons learned from implementing this Promising Practice?
